November could be held under the census now being taken democratic success would be nothing less than impossible. The increase less than ten millions three fourths of which s in the assured republican states of he north The gain is greatest in Kansas Iowa Nebraska W sconsin Michigan and Minne It is also large in Pennsylvania Illi nois and Ohio Cook county Hili contains the city of Chicago will alone gain two members of congress and two electoral Kansas will gain four, Nehraska innesota two and other republican states in like rat o On the other hand most of the southern states will assuredly lose Texas being the only probable exception.
The new distribution will almost certainly give the republican states of the north an ad vantage of fifteen to twenty electoral votes and se many members of congress over the nt apportionment. Any state whose increase of population has been less than the versee of total increase must loss represen in proportion to the increase of the with one, as it is likely that the ratio will be mie. Increase of the ratio is more probable than an increase of the number of repre sentatives Any given ratio applied to the sopulation of the states generally will leave a number of seats unfilled and those seats will be awarded as heretofore the states having the larger fractions of the ratio Oregon way have small fraction, but it will be too trifling to

With few exceptions, the cities are protest ng against the figures of the census This is not a new phenomenon Few of our cities have bad the population they have claimed If the bussts of all of them had been realized our population would be double the fifty millions given by the centus. We speak of fifty millions as a round number, but the acmed result is likely to be two millions less Between 1860 and 1870, notwithstanding the losses of the civil war the gain was seven millions. Puring the past ten years we have had no war, but the hard times have been al most as fatal to growth as war itself If we should abow a gain of ten millions the result would fully meet the expectations of those who have made the subject a study, and therefore are best qualified to form su opinion Our gain from foreign emigration has been very fluctuating. In 1872 it was nearly half a million, but in 1877 it was only 150,000. It is now pouring in at a very rapid rate—so fast indeed that it would
